

CHECKLIST

Commission Decision 2025/2607 establishing the EU Ecolabel criteria for decorative paints, varnishes, and related products, performance coatings and related products, and water-based aerosol spray paints'

Applicant's Checklist

Annex III – water-based aerosol spray paints

This checklist summarises the documentation to be provided for each criterion. This checklist must be completed by the applicant. The listed documents should be submitted to the Competent Body.		
	Included	Does not apply
Excel Form	<input type="checkbox"/>	<input type="checkbox"/>
Criterion 1: Titanium dioxide production		
Parameters (applicable to all final products that contain more than 3,0 % w/w of titanium dioxide (TiO ₂) pigment)		
TiO ₂ producer(s) Declaration Form	<input type="checkbox"/>	<input type="checkbox"/>
TiO ₂ supplier(s) Declaration Form	<input type="checkbox"/>	<input type="checkbox"/>
Risk Assessment for TiO ₂ production site	<input type="checkbox"/>	<input type="checkbox"/>
Occupational hygiene workplace monitoring program (if not included in Risk Assessment document above)	<input type="checkbox"/>	<input type="checkbox"/>
Employee training program (parts related to good practice for dust control shall be highlighted)	<input type="checkbox"/>	<input type="checkbox"/>
Criterion 2: Efficiency in use requirements		
Sub-criterion 2(a) – Spreading rate		
Test reports for spreading rate measurement according to ISO 6504-1 or 6504-3	<input type="checkbox"/>	<input type="checkbox"/>
Sub-criterion 2(b) – Efficiency in spraying		
Test report for efficiency in spraying rate	<input type="checkbox"/>	<input type="checkbox"/>
Sub-criterion 2(c) – Adhesion		
	Included	Does not apply

CHECKLIST

Commission Decision 2025/2607 establishing the EU Ecolabel criteria for decorative paints, varnishes, and related products, performance coatings and related products, and water-based aerosol spray paints'

Test reports for adhesion according to EN ISO 2409	<input type="checkbox"/>	<input type="checkbox"/>
Sub-criterion 2(d) – Corrosion resistance		
	Included	Does not apply
Definition of anti-corrosion testing protocol, appropriate C class and test report in line with EN 12944-6, ISO 6270-1 and ISO 9227	<input type="checkbox"/>	<input type="checkbox"/>
Test reports according to EN ISO 4628-2 for measurement of size and quantity of blisters after exposure to simulated corrosion stresses on the metallic substrates and use environments for which their use is recommended	<input type="checkbox"/>	<input type="checkbox"/>
Test reports according to EN ISO 4628-3 for measurement of degree of rusting after exposure to simulated corrosion stresses on the metallic substrates and use environments for which their use is recommended	<input type="checkbox"/>	<input type="checkbox"/>
Test reports according to EN ISO 4628-8 for measurement of delamination after exposure to simulated corrosion stresses on the metallic substrates and use environments for which their use is recommended	<input type="checkbox"/>	<input type="checkbox"/>
Test reports for adhesion according to EN ISO 2409 after exposure to simulated corrosion stresses on the metallic substrates and use environments for which their use is recommended	<input type="checkbox"/>	<input type="checkbox"/>
Sub-criterion 2(e) – Weathering		
Test report for weathering test protocol based on ISO 16474-2	<input type="checkbox"/>	<input type="checkbox"/>
Test reports for colour change after weathering according to ISO 11664-4		
Test reports for gloss decrease after weathering according to ISO 2813	<input type="checkbox"/>	<input type="checkbox"/>
Test reports for flaking, cracking and blistering after weathering according to ISO 4628 (and respective parts therein)	<input type="checkbox"/>	<input type="checkbox"/>
Criterion 3: Content of Volatile Organic Compounds (VOCs)		
	Included	Does not apply
<i>Testing approach:</i> Test reports for VOC content measurement according to ISO 11890-2	<input type="checkbox"/>	<input type="checkbox"/>
<i>Theoretical calculation approach:</i> Chemical Supplier declarations for all chemical products used to make the formulation	<input type="checkbox"/>	<input type="checkbox"/>

CHECKLIST

Commission Decision 2025/2607 establishing the EU Ecolabel criteria for decorative paints, varnishes, and related products, performance coatings and related products, and water-based aerosol spray paints'

Criterion 4: Restriction of hazardous substances		
Sub-criterion 4.1 – Restrictions on substance of Very High Concern (SVHCs) Sub-criterion 4.2 – General restrictions based on classifications according to specific hazard classifications defined in Regulation (EC) No 1272/2008 Sub-criterion 4.3 – Specific hazardous substance restrictions for ingoing substances		
	Included	Does not apply
Chemical Supplier declarations for all chemical products used to make the formulation	<input type="checkbox"/>	<input type="checkbox"/>
Safety data sheets of all products listed on the declarations mentioned above.	<input type="checkbox"/>	<input type="checkbox"/>
Test report for free formaldehyde according to the VdL RL 03 method or UNI 11775.	<input type="checkbox"/>	<input type="checkbox"/>
Justification of why the use of non-film-forming SPMs improves the overall environmental performance of the paint or varnish product.	<input type="checkbox"/>	<input type="checkbox"/>
Criterion 5: Consumer information		
	Included	Does not apply
Graphical evidence of packaging	<input type="checkbox"/>	<input type="checkbox"/>
Criterion 6: Information appearing on the EU Ecolabel		
	Included	Does not apply
Graphical evidence of packaging	<input type="checkbox"/>	<input type="checkbox"/>
